This is a major update, including all new songs, tweaks, UI improvements, Rockbox Improvements. 4 Updated: Rocksmith 2014 Rocksmith 2014 Edition. Expand all to read the full thread. I am sure that they could be heard better through some sort of amp or effects. Look for a new in-game update on Sunday, June 12th. \r\rI purchased the 3DS Rocksmith \r\rRocksmith 2014 Edition is the best version and has all of the features and even more than the Rocksmith Live! on the PlayStation 3. Run your amp for additional notes, volume control, chromatic tuner. However, this way of viewing time in the settings menu is frustrating, and sometimes to difficult to navigate through. It's currently been removed by JAMMA, and is only available if you contact Rocksmith directly, however we have been informed that JAMMA will re-add it sometime in the future. The process of writing my own novel and publishing it (if I am allowed to) would likely only take a few months, if not less time. The earliest available VST plugins compatible with the software are
